EXECUTIVE SUMMARY

This report is submitted to meet the provisions of Family Code (FC) Sections 17600(c), 17600(g) and 17602, requiring annual and semi-annual reporting by the Department of Child Support Services (DCSS) to the Legislature on the status of the child support program and performance of local child support agencies (LCSAs). This report covers the performance results for Federal Fiscal Year (FFY) 2010, which ended on September 30, 2010. This report provides detailed state and local level information on performance measures and additional data for program costs and program administration.

Beginning on January 1, 2001, DCSS established child support program performance standards consisting of the federal and state measures to enable uniform assessment of performance at the local, state, and national levels.

Federal Performance Measures

- ✓ Rates of paternity establishment.
- ✓ Child support order establishment.
- ✓ Collection rates on current support.
- ✓ Cases with an arrears collection.
- ✓ Cost effectiveness (collections compared to the cost of collections).

State Performance Measures

- ✓ Percent of cases with collections of current support.
- ✓ Average amount collected per case with a collection.
- ✓ Percent of cases with a support order established during the report period.
- ✓ Total direct cost of administering the local child support agency, including share of costs, and the incentive funding received by each county (see Section II, Program Administration).
- ✓ Total indirect cost of administering the local child support agency, including share of costs, and the incentive funding received by each county (see Section II, Program Administration).
- ✓ Percent of cases requiring a support order with alleged obligor served with a summons and complaint.
- ✓ Percent of cases with support orders established with medical support ordered and provided.
- ✓ Comparison of received complaints to cases (customer service).

Family Code section 17600(c)(4)(A) directs DCSS to report annually on the *direct* costs of the program, broken down further by total employee salaries and benefits, and a list of the number of the employees, broken down by job classification.

Family Code Section 17600(c)(4)(B) mandates that DCSS will report annually on the *indirect* program costs, showing all overhead charges. Section II of this report, Program Administration, addresses both direct and indirect costs in compliance with these requirements.

In addition to the data on California's achievement on each of the federal child support performance measures, this report provides a historical comparison of

FFY 2006 through FFY 2010 for the federal measures. Furthermore, the report includes a historical comparison of state measures for FFY 2006 through FFY 2010.

In accordance with the requirements of FC section 17602, Section III of the report contains information and data on performance improvement plans developed by the eleven local child support agencies participating in the Key Counties Initiative established by DCSS in 2006 to assist the lowest performing counties.

I. CHILD SUPPORT PERFORMANCE

Statutory Requirements

This report satisfies the requirements of FC sections 17600(c) and (g) for an annual report of data compiled on California's Child Support Program.

Performance Measures

California measures child support program performance based on a combination of federally mandated measures and state developed measures, which include:

Federal Performance Measures

- Paternity Establishment Percentage (PEP)
 - Statewide PEP
 - IV-D PEP
- Percent of Cases with a Support Order Established.
- Percent of Collections on Current Support.
- Percent of Cases with an Arrears Collection.
- Cost Effectiveness.

State Performance Measures (exclusive of total cost, direct cost, indirect cost and Full Time Equivalent (FTE) data reported in Section II of this report)

- Percent of Cases with Collections of Current Support.
- Average Amount Collected Per Case with a Collection.
- Percent of Cases with a Support Order Established During Report Period.
- Percent of Cases Requiring a Support Order with Alleged Obligor Served with a Summons and Complaint.
- Percent of Cases with Support Orders Established with Medical Support Ordered and Provided.
- Comparison of Received Complaints to Cases.

The performance measures are means to effectively and continuously monitor, evaluate and improve the performance of the child support program.

The federal performance measures were developed and an incentive funding system was implemented based on program performance, as required by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA). The intent of the federal performance-based system is to use specific performance indicators to measure the program's success in achieving its goals and objectives and to reward states for achieving intended results.

The performance indicators in each measurement have a minimum percentage threshold. The minimum threshold represents the lowest acceptable base percent a state must meet in order to earn incentives. Failure to meet a federally established threshold not only disqualifies a state from earning incentive payments on that measure, but may also subject the state to penalties on California's Temporary Assistance to Needy Families (TANF) block grant.

The state performance measures (SPMs), including total cost, direct cost, indirect cost and FTE data in Section II were established by California to monitor aspects of the child support program not covered by the federal measures, giving DCSS additional insight and indicators to measure program accomplishments.

Performance on Federal and State Measures

The performance outcomes that follow reflect the performance of California's child support program as updated through FFY 2010.

California met the minimum threshold on each of the federal performance measures and has shown steady incremental improvement each year since FFY 2001.

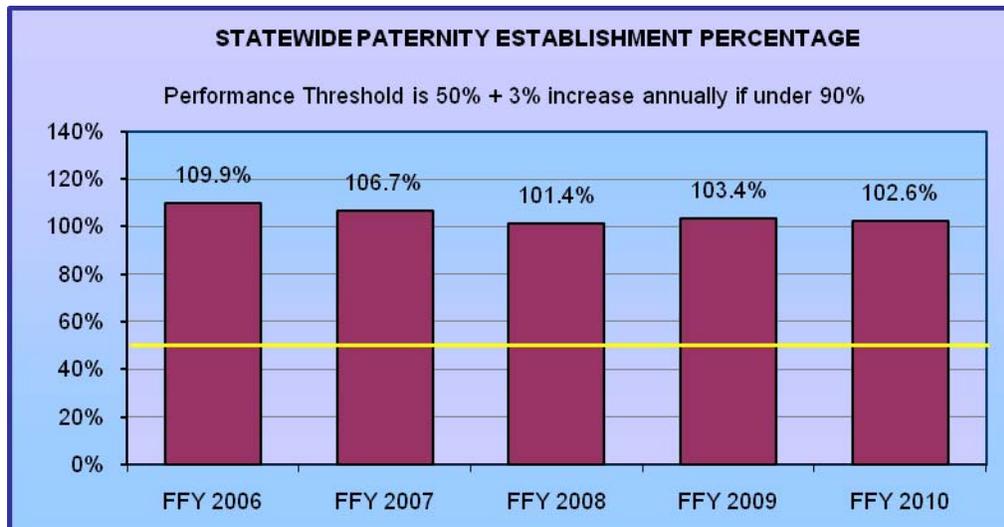

California improved in four of the five federal performance measures in FFY 2010. Statewide paternity establishment percentage decreased slightly from 103.4 percent in FFY 2009 to 102.6 percent in FFY 2010. Cases with support orders established and collections on current support improved 4.7 percent from the prior FFY with cases with arrears collections improving 1.4 percent and cost effectiveness improving 13.3 percent.

The state measures (discussed on pages 31 through 57) for FFY 2010 reflect improvement in all of the state measures. It is important to note that beginning in FFY 2006, a significant change was made to the calculation of the medical support measure making comparisons to prior years impractical. This change was precipitated by new federal data reporting requirements in the Office of Child Support Enforcement (OCSE) 157 report, making the measure consistent with that described in the Federal Strategic Plan.

STATEWIDE PATERNITY ESTABLISHMENT PERCENTAGE

The Federal Performance Measure for the Statewide Paternity Establishment Percentage (PEP) measures the ratio of the total children for whom paternity has been established or acknowledged during the current FFY to the total number of children born out-of-wedlock in the state during the prior calendar year, expressed as a percentage.¹ This calculation uses the number of children, not the number of cases. A paternity can only be counted once, either when a voluntary acknowledgement is filed or at the time a court order determining paternity is established. For incentive calculation purposes, states can choose whether to have their paternity establishment percentage evaluated using one of two measures: IV-D PEP or Statewide PEP. Based on the substantial success of the Statewide PEP measure, DCSS elected to use this measure instead of IV-D PEP, which is also included in this report on page 10.

From FFY 2006 through FFY 2010, Statewide PEP has been extremely strong, always exceeding 100 percent.

From FFY 2006 through FFY 2010, Statewide PEP has been extremely strong, always exceeding 100 percent. This is possible because the performance measure compares a larger group of children (all children, from infants to age 18+, for whom paternity was established during the FFY) to a relatively smaller group of children (babies in California born out-of-wedlock in a single calendar year).

LCSA performance in the Statewide PEP category is exceptional. Statewide performance was 102.6 percent for FFY 2010, a slight decrease of .8 percent from the prior year. Reported births to unmarried parents in calendar year 2009 reached 212,627 compared to 218,087 paternities established in FFY 2010. See Tables A and A-1 on pages 7 and 8.

¹ This percent is calculated from data reported on the annual OCSE 157 Report, Line 9 (Children in the State with Paternity Established or Acknowledged During the FFY) divided by Line 8a (Children in the State Born Out-of-Wedlock During the Prior Calendar Year). The minimum federal performance threshold is 50 percent.

SOURCE: OCSE 157 Line 8a (Children Born Out-of-Wedlock During the Prior Calendar Year) and Line 9 (Children in California with Paternity Established or Acknowledged During the Federal Fiscal Year)

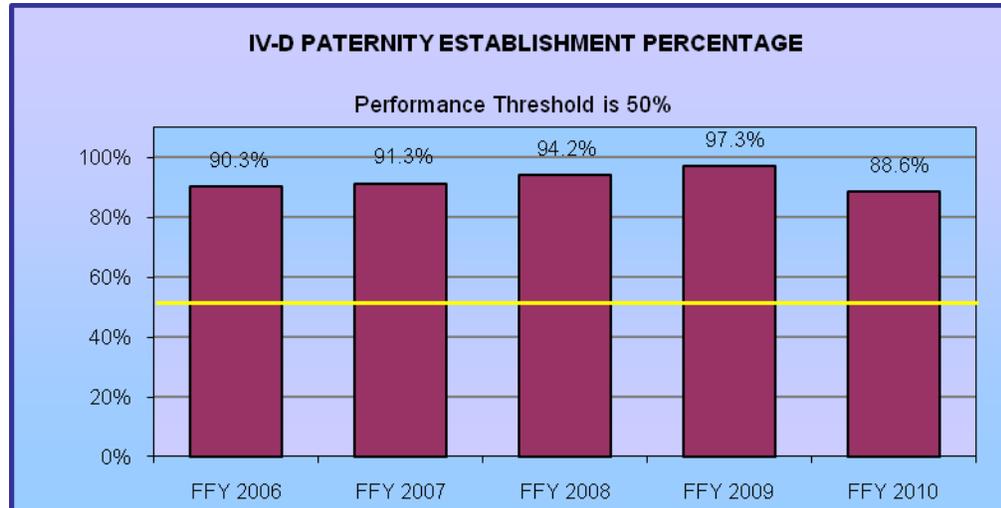

*No activity reported by the Office of Vital Records (OVR) for the LCSA or an individual county in a regionalized LCSA, therefore PEP cannot be calculated.

IV-D PATERNITY ESTABLISHMENT PERCENTAGE

The Federal Performance Measure for IV-D Paternity Establishment Percentage (PEP) compares the total number of children in the IV-D caseload in the FFY for whom paternity has been established or acknowledged, compared to the total number of children in the IV-D caseload as of the end of the preceding FFY who were born out-of-wedlock, expressed as a percentage.²

Overall, IV-D PEP dropped 2.0 percent statewide over the last 5 years.

FFY 2010, IV-D PEP was 88.6 percent, a decrease of 8.7 percent from FFY 2009. The percentage change in IV-D PEP dropped 9.0 percent from FFY 2009 whereas the 5 year change from FFY 2006 dropped by 2.0 percent. Until this FFY 2010, IV-D PEP has not dropped below 90 percent since FFY 2005 when it was 86.0 percent. See Tables B and B-1 on pages 11 and 12.

² This percent is calculated from data reported on the annual OCSE 157 Report, Line 6 (Children in IV-D Cases Open During or at the End of the FFY with Paternity Established or Acknowledged) divided by prior FFY Line 5 (Children in IV-D Cases Open at the End of the FFY Who Were Born Out-of-Wedlock). This data represents point in time counts for the FFY. The minimum federal performance threshold is 50 percent.

SOURCE: OCSE 157 Line 5 (Children in IV-D Cases Open at the End of the Prior Federal Fiscal Year Who Were Born Out-of-Wedlock) and Line 6 (Children in IV-D Cases Open During or at the End of the Federal Fiscal Year With Paternity Established or Acknowledged). Due to adjustments made to the OCSE 157, lines 5 and 6 statewide total counts were reduced by 10,100 and 9,456 respectively. Therefore, the sum of the individual LCSA data for lines 5 and 6 will not equal the statewide total.

*Statewide totals may not match OCSE 157 due to adjustments made to line counts for data unassigned at the county level.

SOURCE: OCSE 157 Line 5 (Children in IV-D Cases Open at the End of the Prior Federal Fiscal Year Who Were Born Out-of-Wedlock) and Line 6 (Children in IV-D Cases Open During or at the End of the Federal Fiscal Year With Paternity Established or Acknowledged)

PERCENT OF CASES WITH A SUPPORT ORDER ESTABLISHED

This Federal Performance Measure determines the percent of child support cases in which a child support order has been established.³ Support orders are defined as legally established, enforceable orders, including orders for medical support. Established support orders are required in order to legally enforce collections.

In FFY 2010, LCSAs with smaller caseloads performed better than larger LCSAs in this measure.

California's performance measure Cases with a Support Order Established increased by 3.7 percent from FFY 2009. In FFY 2010, the performance measure rose back to the 82.5 percent after falling in FFY 2009 to 78.8 percent. In the three years prior to FFY 2009, the measure was above 80 percent.

In FFY 2010 the number of cases statewide was approximately 1.51 million. Of that, approximately 1.2 million, or 82.5 percent of the cases, had established support orders. LCSAs with smaller caseloads performed better than larger LCSAs in this measure. The Big Six LCSAs in California with the largest caseloads, as a group, performed at 77.6 percent, while the 11 smallest LCSAs (consisting of 14 counties) resulted in performance of 92.5 percent. (See Appendix A, on page 81, for a listing of LCSAs' size by caseload grouping.) See Table C and C-1 on pages 15 and 16.

³ This percent is calculated from data reported on the annual OCSE 157 Report, Line 2 (Cases Open at the End of the FFY with Support Orders Established) divided by Line 1 (IV-D Cases Open at the End of the FFY). The minimum federal performance threshold is 50 percent.

PERCENT OF COLLECTIONS ON CURRENT SUPPORT

This Federal Performance Measure determines the amount of current support collected and distributed, compared to the total amount of current support owed, expressed as a percentage.⁴ Current Assistance, Former Assistance and Never Assistance cases are all included in the measure, along with cases with cash medical support payments and cases closed during the FFY that had current support due.

From FFY 2006 through 2010, the statewide distributed collections have increased 11.0 percent.

Collections on Current Support have been increasing each year from FFY 2006 to FFY 2010 with an overall statewide increase of 5.6 percent. In FFY 2010, California collected and distributed 56.0 percent of the current support owed, an 11.0 percent increase from FFY 2006. California collected and distributed \$1.38 billion of the \$2.47 billion in current support owed during FFY 2010.

During FFY 2010, California collected and distributed \$1.38 billion of the \$2.47 billion in current support owed.

The Big Six LCSAs represents over half of all collections distributed and all six LCSAs performed below the statewide performance level of 56.0 percent. However, the LCSAs in the small and very small categories (28 LCSAs) with the exception of one LCSA, had the statewide performance level above the 56.0 percent. (See Appendix A, on page 81, for a listing of LCSAs' size by caseload grouping.) See Tables D and D-1 on pages 19 and 20.

⁴ This percent is calculated from data reported on the annual OCSE 157 Report, Line 25 (Total Amount of Support Distributed as Current Support During the FFY), divided by Line 24 (Total Amount of Current Support Due for the FFY). The minimum federal performance threshold is 40 percent.

SOURCE: OCSE 157 Line 24 (Total Amount of Current Support Due for the Federal Fiscal Year) and Line 25 (Total Amount of Support Distributed as Current Support During the Federal Fiscal Year)

PERCENT OF CASES WITH AN ARREARS COLLECTION

This Federal Performance Measure captures the percent of child support cases that owe past due child support (arrears) in which at least one payment was made towards that arrearage during the FFY.⁵ An arrearage is reported any time a current support payment is missed. The measure includes Current Assistance, Former Assistance, and Never Assistance cases, as well as cases closed during the FFY.

In general LCSAs with smaller caseloads have been more successful in collecting on cases with arrears due.

Percentage of cases with an arrears collection has increased annually since FFY 2006. In FFY 2010, the statewide performance for this performance measure is 60.3 percent, a 1.4 percentage increase from the prior year. The percentage change from FFY 2006 to FFY 2010 increased by 6.8 percent.

In general LCSAs with smaller caseloads have been more successful in collecting on cases with arrears due. The Big Six LCSAs as a group, performed at the lowest level, with a combined total of 57.7 percent. LCSAs in the small (consisting of 14 counties) and very small (consisting of 14 counties) caseload groupings reflected a combined average of 64.5 percent and 63.6 percent respectively. (See Appendix A, on page 81, for a listing of LCSAs' size by caseload grouping.) See Tables E and E-1 on pages 23 and 24.

⁵ This percent is calculated from data reported on the annual OCSE 157 Report, Line 29 (Cases Paying Toward Arrears During the FFY), divided by Line 28 (Cases with Arrears Due During the FFY). The minimum federal performance threshold is 40 percent.

SOURCE: OCSE 157 Line 28 (Cases With Arrears Due During the Federal Fiscal Year) and Line 29 (Cases Paying Toward Arrears During the Federal Fiscal Year)

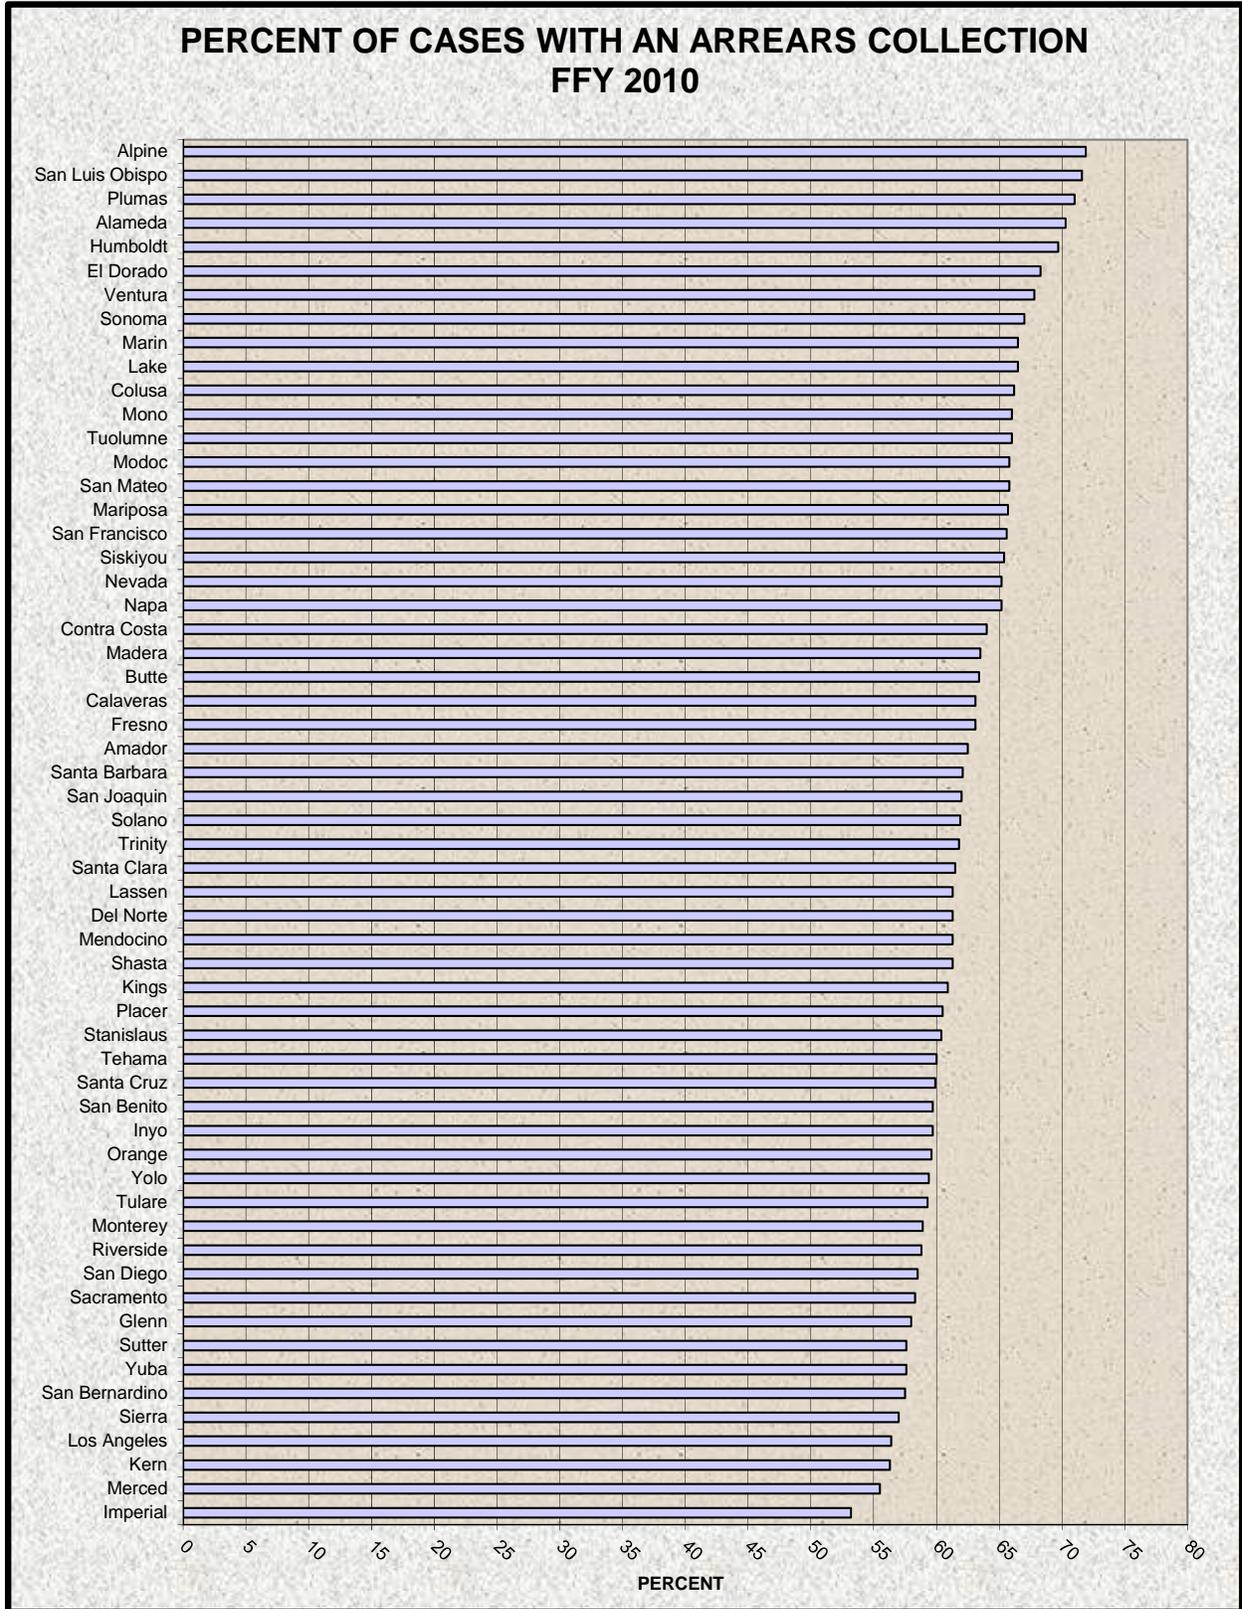

Due to adjustments made to the OCSE 157, lines 28 and 29 statewide total counts were reduced by 14,133 and 4,828 respectively. Therefore, the sum of the individual LCSA data for lines 28 and 29 will not equal the statewide total.

*Statewide totals may not match OCSE 157 due to adjustments made to line counts for data unassigned at the county level.

COST EFFECTIVENESS

This Federal Performance Measure demonstrates the efficiency of the child support program by comparing money collected to the cost of the program. The performance measure is a ratio of total distributed child support collections and fees retained by other agencies during the FFY to total administrative costs of the IV-D Program.⁶ This administrative cost is measured by expenditures, not amounts budgeted or allocated. The total amount of distributed collections includes current support and arrears, interest, recoupment of aid paid, and fees retained by other states during the FFY.

Generally, LCSAs with larger caseloads tend to perform better in cost effectiveness than LCSAs with smaller caseloads.

California achieved a cost effectiveness ratio of \$2.38 in FFY 2010, a 13.3 percentage increase from \$2.10 that was reported in the previous FFY. As a result, cost-effectiveness met the performance threshold of \$2.00 for FFY 2010. Over the past five years, cost effectiveness went from \$2.03 in FFY 2006 to \$2.38 in FFY 2010, an increase of 17.2 percent.

The county specific cost effectiveness calculations compare county collections with county costs, excluding any state level administration costs or statewide system development costs. Consequently, local collection-to-cost ratios are generally higher than the statewide ratio.

Beginning in FFY 2010, individual LCSA totals (taken from the CS 356 Report) have been adjusted for shared services.

⁶ The cost effective dollar figure is calculated from the data reported on the OCSE 34-A Report Line 4b (Collections Sent to Other States), plus Line 4c (Collections Sent to Other Counties), Line 8 (Total Collections Distributed), and Line 11 (Fees Retained by Other States), divided OCSE 396-A Report Line 7 (Total Costs Claimed) less Line 1c (Non IV-D Costs). The minimum federal performance threshold is \$2.00.

The LCSAs with larger caseloads have shown better performance in cost effectiveness than LCSAs with smaller caseloads. The Big Six LCSAs with the largest caseloads, which account for over half of total collections, performed at a higher level as a group than the rest of the state, reflecting cost effectiveness of \$3.13. The twelve LCSAs (consisting of 14 counties) in the small caseloads grouping performed the lowest in comparison as a group with a ratio of \$2.50.

Individually, the LCSAs' performance for cost effectiveness ranged from a high of \$4.93 to a low of \$1.80. (See Appendix A, on page 81, for a listing of LCSAs' size by caseload grouping.) See Table F and F-1 on pages 28 and 29.

SOURCE: Due to reformatting of the OCSE 34, for FFYs 2008, 2009 and 2010, the OCSE 34-A lines are Line 4b (Collections Sent to Other States), Line 4c (Collections Sent to Other Countries), Line 8 (Total Collections Distributed), Line 11 (Fees Retained by Other States); OCSE 396-A Line 1c (Non IV-D Costs), Line 7 (Total Costs Claimed). For FFYs 2006 and 2007, the OCSE 34 lines were Line 5 (Collections Sent to Other States), Line 8 (Total Collections Distributed), and Line 13 (Fees Retained by Other States); the OCSE 396-A lines are Line 9 (Total Costs Claimed) and Line 1b (Non IV-D Costs).

PERCENT OF CASES WITH COLLECTIONS OF CURRENT SUPPORT

This State Performance Measure determines the percent of cases in the IV-D caseload receiving payment for current support compared to the total number of cases with current support due.⁷ Unlike the Federal Performance Measure of Collections on Current Support, this measure evaluates the number of cases owed and receiving current support, not the total dollar amounts owed and received.

453,524 cases (or 75.9 percent of all cases owing current support) paid current child support in California for FFY 2010.

In FFY 2010, there were 453,524 cases paying toward current child support for the 597,876 cases with current support due, which equates to 75.9 percent of the total cases owing current support in California. Percent of cases with collections of current support have maintained above 64 percent over the last five years. There was a percentage increase of 17.8 percent from the prior year and a 12.4 percent increase from FFY 2006.

The LCSAs with smaller caseloads performed better than the LCSAs with larger caseloads. For FFY 2010, the differences amongst the LCSAs ranged in percentages from a low of 66.7 percent to a high of 87.3 percent. (See Appendix A, on page 81, for a listing of LCSAs' size by caseload grouping.) See Table G and G-1 on pages 32 and 33.

⁷ The performance level for this measure is calculated from data reported on the OCSE 1257 Report, Line 45 (Cases Paying Toward Current Support in the FFY), divided by Line 44 (Cases with Current Support Due in the FFY).

AVERAGE AMOUNT COLLECTED PER CASE WITH A COLLECTION

This State Performance Measure determines the average amount collected per case for all cases with a collection. The measure represents the unduplicated annual count of child support cases with at least one collection of support compared to the total amount of distributed collections (current support and arrears) during the report period.⁸

Since FFY 2006 statewide collections per case have increased by 3.7 percent.

In FFY 2010, LCSAs with larger caseloads generally had higher collections per case than smaller LCSAs.

California's total child support collected and distributed, as reported on the annual OCSE 157 Report, was approximately \$2.3 billion in FFY 2010. When applying the 722,857 cases with a collection, the state averaged \$3,118 collected per case, a slight increase from the prior FFY. Since FFY 2006, the statewide collections per case have increased by 3.7 percent.

LCSAs with larger caseloads generally had higher collections per case than smaller LCSAs. The Big Six LCSAs with the largest caseload and collections averaged \$3,244 per case as a group, and the eleven LCSAs with the smallest caseload (consisting of 14 counties) averaged \$2,721 per case as a group. (See Appendix A, on page 81, for a listing of LCSAs' size by caseload grouping.) See Tables H and H-1 on pages 36 and 37.

Additionally, FC Section 17600(b)(6) requires this report to contain information as to the total child support distributed during the current FFY, broken down by Current Assistance, Former Assistance, and Never Assistance cases. This information is contained on Table I, page 39 of this report.

⁸ The performance level for this measure is calculated from the sum of data reported on the annual OCSE 157 Report, Line 25 (Total Amount of Support Distributed as Current Support During the FFY) and Line 27 (Total Amount of Support Distributed as Arrears and Interest During the FFY), divided by Line 18 (Cases with Collections During the FFY).

PERCENT OF CASES WITH A SUPPORT ORDER ESTABLISHED DURING REPORT PERIOD

This State Performance Measure determines the number of cases that had a child support order established during the FFY, compared to the number of cases open at the end of the period requiring establishment of a support order, expressed as a percentage.⁹

Since FFY 2006, the statewide performance on this measure has increased by 58.7 percent.

California established support orders in 34.8 percent of cases needing an order during FFY 2010, an increase of 24.5 percent from FFY 2009. A total of 165,918 cases with support orders were established during the reporting period. Statewide performance for this measure has increased by 58.7 percent since FFY 2006.

Individual LCSA support order establishment percentages varied from 16.8 percent to 100.0 percent in FFY 2010. The Big Six LCSAs with the largest caseload showed 26.1 percent of cases with an order established, as a group. The eleven LCSAs with the smallest caseload (consisting of 14 counties) performed at 64.0 percent as a group. (See Appendix A, on page 81, for a listing of LCSAs' size by caseload grouping.) See Tables J and J-1 on pages 41 and 42.

⁹ The performance level for this measure is calculated from data reported on the annual OCSE 157 Report, Line 17 (Cases with Support Orders Established During the FFY), divided by the sum of Line 12 (Cases Open at the End of the FFY Requiring Services to Establish an Order) and Line 17 (Cases with Support Orders Established During the FFY).

SERVICE OF SUMMONS AND COMPLAINT

The purpose of this State Performance Measure is to determine the percent of alleged fathers and/or obligors served with a Summons and Complaint to establish paternity or a support order.¹⁰ The court process requires that the alleged father or obligor must be served with a Summons and Complaint (either in person or by certified mail) to legally establish paternity or to establish an order for child support.

In FFY 2010, of the 476,351 cases requiring an order, 89,367 alleged fathers and/or obligors were served with a Summons and Complaint.

In FFY 2010, of the 476,351 cases requiring an order, 89,367 alleged fathers and/or obligors were served with a Summons and Complaint. The percent of cases served with a Summons and Complaint represents 18.8 percent of the cases requiring an order. Overall performance has remained fairly consistent from FFY 2008 to FFY 2010. The percentage change from 2006 to 2010 dropped 28.2 percent.

In FFY 2010, the large, medium, small and very small caseload groupings averaged above the statewide percent. The Big Six LCSAs with the largest caseloads were the lowest performers on this measure, performing at 17.0 percent as a group. (See Appendix A, on page 81, for a listing of LCSAs' size by caseload grouping.) See Tables K and K-1 on pages 45 and 46.

¹⁰ The performance level for this measure is calculated from data reported on the CS 1257 Report, Line 43 (Number of Alleged Fathers and/or Obligor Successfully Served with a Summons and Complaint During the FFY) divided by the sum of Line 12 (Cases Open at the End of the FFY Requiring Services to Establish an Order) and Line 17 (Cases with Support Orders Established During the FFY) of the OCSE 157 Report.

PERCENT OF CASES WITH SUPPORT ORDERS ESTABLISHED WITH MEDICAL SUPPORT ORDERED AND PROVIDED

Through FFY 2005, this State Performance Measure for Cases with a Medical Support Order determined the percent of cases in the child support caseload for which medical support had been ordered.¹¹ In FFY 2006, California significantly changed the method of calculating this measure, resulting in a percentage that is no longer comparable to prior years. This change was precipitated by the newly available data supporting Lines 21a (Cases Open at the End of the Month in Which Medical Support is Ordered and Provided) and 2e (Arrears-Only IV-D Cases With Orders Established Open at the End of the Month) in the OCSE 157 report, making the measure consistent with that described in the Federal Strategic Plan. The new calculation utilizes the number of cases in which medical support is ordered and provided, not just ordered.

In FFY 2010, California had 987,026 cases with support orders established (minus arrears-only cases). Cases with medical support ordered and provided total 512,911 or 52.0 percent of cases with support orders established. This represents an increase of 7.7 percent from FFY 2009. This increase is due to additional programming changes that occurred during FFY 2008 aimed at improving the accuracy of Line 21a.

Individual LCSAs' results range from 39.5 percent to 65.6 percent. The difference was greater in the prior FFY with the range from a low of 33.4 percent to 64.7 percent. (See Appendix A, on page 81, for listing of LCSAs' size by caseload grouping). See Table L and L-1 on pages 49 and 50.

¹¹ Through FFY 2005, the performance level for this measure is calculated from data reported on the annual OCSE 157 Report, Line 21, (Cases Open at the End of the FFY in which Medical Support is Ordered) divided by Line 2 (Cases Open at the End of the FFY with Support Orders Established). Current Assistance, Former Assistance and Never Assistance cases, as well as cases that are closed during the FFY are included in this measure. Beginning in FFY 2006, the measure was calculated by dividing Line 21a (Cases Open at the End of the FFY in Which Medical Support is Ordered and Provided) by Line 2 minus Line 2e (Arrears-Only IV-D Cases With Orders Established Open at the End of the FFY).

COMPARISON OF RECEIVED COMPLAINTS TO CASES

This State Performance Measure shows a comparison of complaints to the caseload for each LCSA.¹² The purpose of this information is to assess effectiveness of case management for each county’s Child Support Program. The comparison utilizes county caseload and computes the number of complaints per 10,000 cases. The chart below reflects only total statewide complaints by FFY.

In FFY 2010 a total of 2,634 complaints were filed for approximately 1.5 million open child support cases.

FC Section 17800 requires the maintenance of a uniform complaint resolution process within the LCSAs. To ensure uniform complaint resolution data tracking and reporting, DCSS developed the Complaint Resolution Tracking System (CRTS). All LCSAs are required to use CRTS to enter complaint data.

In FFY 2010, a total of 2,634 complaints were filed and recorded in the DCSS CRTS for approximately 1.5 million open child support cases. Complaints statewide decreased by 687 complaints from FFY 2009 to FFY 2010, and decreased by 6.4 percent from FFY 2006 to FFY 2010. The eleven LCSAs with the smallest caseloads (consisting of 14 counties), as a group, received 11.2 complaints per 10,000 cases in FFY 2010. The Big Six LCSAs with the largest caseloads, as a group, received 20.2 complaints per 10,000 cases. (See Appendix A, on page 81, for a listing of LCSAs’ size by caseload grouping.) See Tables M and M-1 on pages 53 and 54.

¹² Complaint information is based on the Complaint Resolution Tracking System (CRTS), and caseload is based on data reported on the annual OCSE 157 Report, Line 1 (IV-D Cases Open at the End of the FFY).

COMPARISON OF RECEIVED COMPLAINTS TO CASES FFY 2010

NOTE: For FFY 2010, no complaints were reported for Alpine, Colusa, Glenn, Mariposa, Mendocino, Mono, and Sierra, therefore, these counties were omitted from this chart.

II. PROGRAM ADMINISTRATION

Description of Program Administration

DCSS is responsible for direct oversight, supervision, and funding of LCSA operations to ensure an efficient and effective statewide child support program. A sound methodology and process to appropriately allocate administrative funds to LCSAs to support their efforts in administering the program is critical to overall program success. The appropriateness of resource allocation in support of LCSA operations greatly impacts the ability to accurately assess relative local agency and overall statewide child support program performance.

The Program Administration Data

Family Code Section 17600(c) identifies the State Performance Measures. Subdivision (4) of that section contains requirements for DCSS to report various program fiscal and administrative data for local child support agencies. The required state program data elements are as follows:

Total Costs of Program Administration – FC Section 17600(c)(4)

The total cost of administering the local child support agencies, including the federal, state, and county share of the costs, and the federal and state incentives received by each county.

Total Direct Program Costs – FC Section 17600(c)(4)(A)

The direct costs of the program broken down by total employee salaries and benefits, contractor costs, space charges, and payments to other county agencies.

Total Full-Time Equivalent (FTE) Employees – FC Section 17600(c)(4)(A)

In addition to direct program costs, this section also requires a list of the number of employees broken down into at least the following categories: attorneys, administrators, caseworkers, investigators, and clerical support.

Total Indirect Program Costs – FC Section 17600(c)(4)(B)

The indirect costs of the program (all overhead charges).

Total Costs of Program Administration

Total costs of administering each LCSA, including the federal and non-federal shares are reported for State Fiscal Years (SFYs) 2004-05, 2005-06, 2006-07, 2007-08, 2008-09, and 2009-10. These costs are displayed on the Program Administration Tables (see pages 60, 62, 64, 66, 68, and 70). These tables also display data for staffing by FTE. The total statewide administrative cost for operation of all local child support agencies was:

SFY	Administrative Cost
2004-05	\$782.3 million
2005-06	\$770.9 million
2006-07	\$782.9 million
2007-08	\$779.1 million
2008-09	\$766.0 million
2009-10	\$758.8 million

The child support administrative costs are primarily funded by federal financial participation (66 percent) and non-federal match (34 percent). Pursuant to FC Section 17704(b)(2)(B)(i), the non-federal match is comprised of federal incentives and a balance of State General Fund as follows:

SFY	Federal Incentives	State General Fund	Federal Participation
2004-05	\$43,917,000	\$226,012,462	\$516.3 million
2005-06	\$41,743,556	\$220,351,797	\$508.8 million
2006-07	\$39,823,017	\$226,346,120	\$516.7 million
2007-08	\$39,083,934	\$225,816,066	\$514.2 million
2008-09	\$34,990,797	\$225,452,552	\$505.6 million
2009-10	\$37,681,286	\$220,295,559	\$500.8 million

Total Direct Program Costs

The direct costs of LCSAs are broken down by total employee salaries, direct service contracts, space, payments to other county agencies, and other direct costs for SFYs 2004-05, 2005-06, 2006-07, 2007-08, 2008-09, and 2009-10. Other direct costs include automation, travel, and operating expenses. These costs are displayed in Direct Cost Tables on pages 59, 61, 63, 65, 67, and 69, and reflect actual amounts reported by LCSAs.

The data presented is based on data reported on the CS 921 Local Child Support Agency IV-D Program SFYs 2004-05, 2005-06, 2006-07, 2007-08, 2008-09, and 2009-10 Budget Display reports, a budgeting tool for use by local agencies in reporting administrative expenses and staffing levels in conformance with federal and state guidelines. The CS 921 report is used by DCSS to collect baseline information and to assist with the preparation of annual allocations for LCSAs. Data reported represents actual costs and staff as reported in local county budgets and not tied to specific county allocations or expenditures. The information is reported by local agencies once per year.

Total Full-Time Equivalent Employees

This data element identifies the authorized FTE positions in LCSAs for SFYs 2004-05, 2005-06, 2006-07, 2007-08, 2008-09, and 2009-10, broken down by attorneys, administrators, caseworkers, investigators, clerical support, and other

staff, and displayed in tables (see pages 60, 62, 64, 66, 68, and 70). Other staff includes: automation staff and staff for targeted programs such as customer service, ombudsperson program, and training programs. The actual positions reported here have been approved in local child support program budgets.

The CS 921 budget template form includes definitions to delineate the functions performed by child support staff in each of the staffing categories. The following provides highlights of the detailed functional definitions by job category:

Attorneys - Staff licensed and performing specific duties in direct support of the child support program, including, but not limited to court appearances, motion filing, order modifications, lien releases, and legal advice on program policy and procedures. All legal functions, including those performed by law clerks and paralegals, are included here.

Administrators - Administrators include: directors, program managers, administrator/business managers, fiscal managers, and human resources managers.

Caseworkers - Caseworkers include all staff responsible for activities directly related to casework including, but not limited to, interviewing case participants, maintaining and updating case control logs, performing notary duties, and negotiating child support payments. Caseworker supervisors also are included in this category.

Investigators - Staff performing non-criminal investigation activities in direct support of casework (non-sworn peace officer duties) are considered investigators. Investigator supervisors also are included in this category.

Clerical Support - Clerical support includes all local agency staff performing clerical duties such as filing and word processing. This includes administrative support, such as executive secretaries, secretaries, PBX/mail/file clerks, and account clerks.

Other Staff - Other staff includes all staff performing targeted program functions such as automation, customer service, ombudsperson, quality assurance, program improvement, compliance reviews, complaint resolution and state hearing processes, training, and customer and community outreach.

Total Indirect Program Costs

This data element identifies the indirect costs of LCSAs for SFYs 2004-05, 2005-06, 2006-07, 2007-08, 2008-09, and 2009-10. Indirect Cost Tables (see pages 59, 61, 63, 65, 67, and 69) reflect total indirect costs, as authorized in local budgets, for LCSAs broken down by the countywide overhead costs.¹³ Indirect program costs are countywide overhead costs that are estimated administrative expenses planned for each department in the county for a given fiscal year. Adjustments are made in following years if the department paid in excess of the actual expenses and the credit is used in subsequent years.

¹³ Includes OMB A-87 costs only.

III. PERFORMANCE IMPROVEMENT: KEY COUNTY INITIATIVE

In FFY 2006, DCSS began an initiative to focus on improving performance in the lowest performing LCSAs. Of California's 52 LCSAs, DCSS focused on eleven which were performing below 50 percent on current support collections and seven of the eleven which were performing below 55 percent on arrears collections. The eleven LCSAs included: Imperial, Kern, Lake, Los Angeles, Riverside, Sacramento, San Bernardino, San Diego, Santa Clara, Yolo, and Yuba.

These LCSAs represented the greatest potential for performance improvement and cumulatively represent 60 percent of the total statewide caseload. Five of the six very large LCSAs were in this group. Therefore, significant improvement by these LCSAs greatly improves California's statewide performance in two key federal measures. The chart on page 78 illustrates the successful impact of the Key County Initiative on improving performance in the eleven counties participating.

Ten LCSAs successfully completed this performance improvement effort by the end of FFY 2010:

- ❖ **Kern** – The Current Support performance measure was the focus of Kern's Performance Improvement Action Plan (PIAP). Kern achieved a performance level of 50 percent or better on this performance measure in January 2007, and completed the Initiative in November 2007. Kern's PIAP included:
 - case closure
 - an office-wide reorganization
 - Full Collections training
 - several projects to improve the effectiveness of income withholding orders in obtaining collections

- ❖ **Lake** – Current Support was the focus of Lake's PIAP. Lake achieved a performance level of 50 percent or better on this performance measure beginning in January 2007, and completed the Initiative in November 2007. Lake focused on:
 - block case reviews
 - case closure
 - working specific task lists to improve performance

Lake was the **most improved** small-sized LCSA on the Current Support measure in FFY 2007 and again in FFY 2008.

- ❖ **Santa Clara** – Current Support was the focus of Santa Clara's PIAP. Santa Clara achieved and maintained a performance level of 50 percent or better beginning in February 2007, and completed the Initiative in November 2007. The LCSA focused on:
 - order modification and practices for setting reasonable orders
 - case closure
 - Just Ask

- reorganization to reduce supervisors' span of control and allow caseworker teams to focus on targeted performance measures
- training in collections
- learning best practices from other LCSAs

Santa Clara was the **most improved** large-sized LCSA on the Current Support measure in FFY 2007 and again in FFY 2008.

- ❖ **Yolo** – Both Current Support and Arrears were the focus of Yolo's performance improvement efforts. Yolo achieved and exceeded a performance level of 50 percent beginning in FFY 2006 on the Current Support measure. Yolo's performance on Arrears exceeded the 55 percent performance level beginning in FFY 2006. The LCSA completed the Initiative in November 2007.

Yolo was the **most improved** medium-sized LCSA on the Current Support measure in FFY 2006.

- ❖ **San Diego** – Both Current Support and Arrears were the focus of San Diego's performance improvement efforts. The LCSA achieved a performance level of 50 percent or more beginning in May of 2007, and ended FFY 2007 at 50.3 percent on the Current Support measure. San Diego's performance on Arrears reached 56.6 percent at the end of FFY 2007. San Diego completed the Key County Initiative in late November 2007.

The LCSA:

- provided Full Collections training for all staff
- worked on duplicate case transfers and case closure
- increased its use of the Compromise of Arrears Program
- initiated a cell phone pilot project
- tried a contract collections service with the use of one-time performance improvement funding
- expanded paternity outreach
- focused on identifying cases with new residence or employer information to restart the order establishment process

San Diego was the **most improved** very large-sized LCSA on the Current Support measure in FFY 2006. It received the **Top Performer Award** for very large-sized LCSAs in FFY 2008. In FFY 2009, San Diego earned awards for the **most improved** very large-sized LCSA overall and the **Top Performer Award** for very large-sized LCSAs.

- ❖ **San Bernardino** – Current Support was the focus of San Bernardino's PIAP. The LCSA achieved and maintained a performance level of 50 percent or better beginning in October 2007. San Bernardino completed the Key County Initiative in May 2008.

The LCSA's strategies included:

- reorganization

- court process reengineering
- a “Collect, Correct, or Close” campaign where cases were reviewed for the next appropriate action
- early intervention where there are employers but no wage assignments
- targeting high impact cases
- case closure campaign
- duplicate case transfers
- a support order guideline matrix
- workflow realignment and improvement of business processes
- Full Collections training
- training on paternity declarations for county eligibility workers
- prison outreach program
- an incarcerated obligor local program

San Bernardino received the **Top Performer Award** for very large-sized LCSAs in FFY 2010.

- ❖ **Riverside** – Current Support was the focus of Riverside’s PIAP. Riverside achieved and maintained a performance level of 50 percent or better beginning in February 2008. The LCSA successfully completed the Key County Initiative in September 2008.

The LCSA’s PIAP strategies included various efforts to increase collections, such as:

- streamlining, enhancing, and coordinating the quarterly delinquency monitoring
- block review of cases
- review and adjustment/Minimum Basic Standard of Adequate Care (MBSAC) adjustment projects
- more concentrated and focused review of cases potentially eligible for closure
- reducing the default order establishment rate by using a phone tree – an automated predictive dialing software – to make weekly calls to parents who had had a Summons and Complaint for support order establishment filed in their case
- offering stipulation services and personal contact with obligors
- business process improvement analysis efforts
- staff collections skill training

The LCSA was the **most improved** very large-sized LCSA in FFY 2007 on the Current Support measure.

- ❖ **Sacramento** – Current Support was the focus of Sacramento’s PIAP. Sacramento has achieved and maintained a performance level of 50 percent or better on this performance measure since August 2008.

The LCSA’s key PIAP strategies included:

- Sacramento Non and Partial/Stop Pay Review (SNAPS) where cases in the Court Order Enforcement division are categorized based on payment status. Caseworkers are provided a focused checklist which outlines the required steps to deal with cases falling within each of these categories.
- Expansion of the successful pilot Post Hearing Interview Program, which targets Noncustodial parents who have just completed their court hearing.
- “Stipulation Thursdays” were expanded to reach out to the community and work with parents to establish accurate child support orders.

Sacramento was the very large-sized LCSA **most improved** on overall performance in FFY 2010.

- ❖ **Yuba** – Current Support and Arrears were the focus of Yuba's PIAP. Yuba achieved and maintained a performance level of 50 percent on the Current Support measure and 55 percent on the Arrears measure, and successfully completed the initiative in June 2009.

Yuba's PIAP focused on changing the way they approached customers through more contacts and outreach. Their goal was to reduce default orders in order to establish more appropriate orders and increase collections.

They also:

- concentrated on case closure
- reviewed the establishment processes of other small high-performing LCSAs
- improved their rate of successful service of process
- followed up on delinquent accounts by contacting the Noncustodial parents and employers and taking the next appropriate action to support continued payments.

Yuba was the **most improved** small-sized LCSA on the Current Support measure in FFY 2006.

- ❖ **Los Angeles** – Both Current Support and Arrears were the focus of Los Angeles' performance improvement efforts. The LCSA achieved a performance level of 50 percent or more in November 2010 and ended FFY 2010 at 53.8 percent on the Current Support measure. Los Angeles' performance on Arrears reached 55.6 percent in August 2010 and ended FFY 2010 at 56.4 percent. Los Angeles completed the Key County Initiative in August 2010.

The LCSA's PIAP strategies included:

- reorganization to Case Ownership Model
- reassignment of key managers
- management and supervisor focus on performance
- sharing best practices among its many divisions

- sharing daily, weekly, monthly performance statistics widely within the department
- improving information on NCPs' income early during the co-locate process in order to be able to base orders on actual income rather than presumed income
- increasing monies in the Just Ask program
- case closure
- review and adjustments
- completion of Full Collections training
- project assistance to prisoners with child support
- Child Support Statistics (CSTATS) effort with initial focus on key wage assignment tasks
- participation in the cell phone pilot project
- targeted arrears campaign
- focus on top ten highest total monthly support orders
- reducing customer wait time in offices
- focusing on statistics, proper procedures and specific training to improve overall performance in order to reduce the number of state hearings needed
- focus on criminal prosecution
- focus on Compromise of Arrears

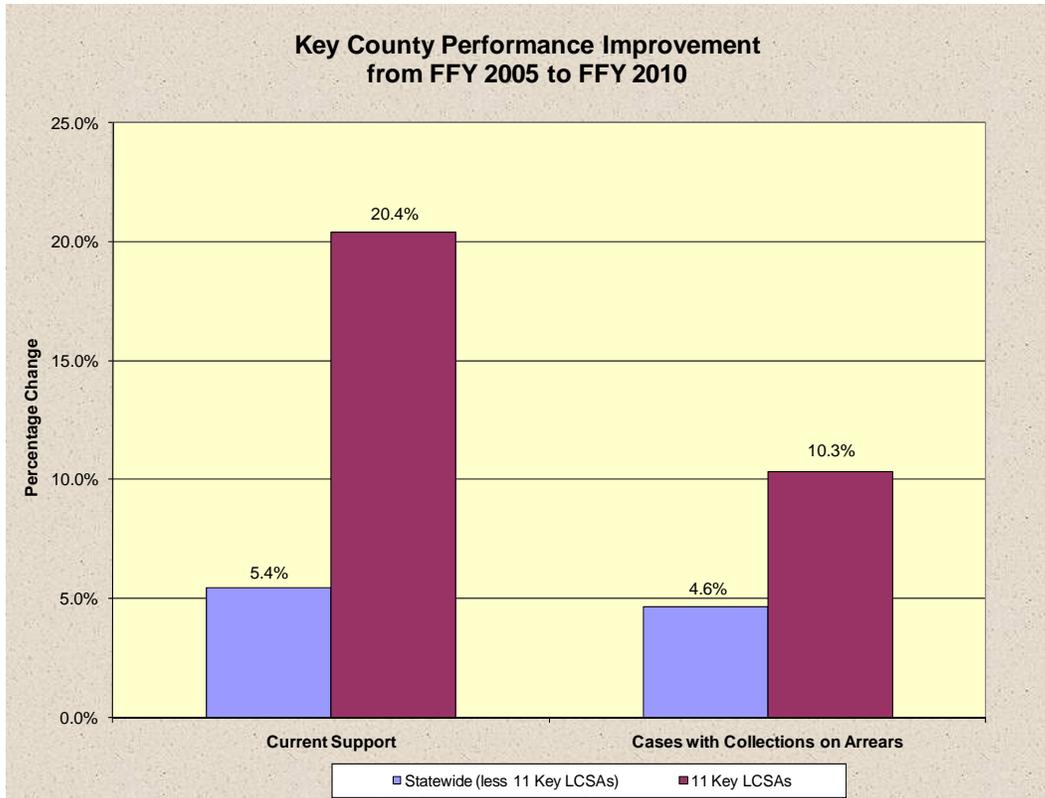

Los Angeles was the **most improved** LCSA on the Current Support measure for very-large sized LCSAs in FFY 2008.

One LCSA remains in the Key County Initiative:

- ❖ **Imperial** – Current Support and Arrears have been the focus of Imperial's PIAP. Imperial achieved and maintained a performance level of 50 percent on the Current Support measure in December 2010, and is currently focusing on the Arrears measure.

The LCSA's key PIAP strategies have included:

- targeted case closure review
- utilization of the Case Management Tool
- realignment of staff to focus case ownership model
- early interview activities focusing on calling NCPs with delinquencies
- review of arrears cases with balances over \$501 and less than \$5,001
- delinquency out-bound calling campaigns/auto dialer with partner LCSA
- Customer Appreciation Day which focuses on arrears collections
- Compromise of Arrears
- Just Ask

IV. DEFINITIONS

California's child support program operates within a complicated federal and state statutory and regulatory construct. There are many terms used within the program that have a specific meaning and are reflected in the federal and state performance measures. Terms commonly used in the performance measures are:

- **IV-D Program** – The State child support enforcement program, enacted under Title IV-D of the federal Social Security Act, locates noncustodial parents or putative fathers; establishes paternity; establishes, modifies, and enforces child support and medical support orders; and collects and distributes child support payments.
- **IV-D Case** - A parent (mother, father, or putative father) who is now, or eventually may be, obligated for the support of a child or children receiving services under the Title IV-D Program. A parent is reported as a separate IV-D case for each family with a dependent child or children that the parent may be obligated to support. If both parents are absent and liable or potentially liable for support of a child or children receiving services under the Title IV-D Program, each parent is considered a separate IV-D case.
- **Current Assistance Case** - A case where the children are: (1) recipients of California Work Opportunity and Responsibility to Kids (CalWORKs)/ Temporary Assistance for Needy Families (TANF) under Title IV-A of the Social Security Act, or (2) entitled to Foster Care maintenance payments under Title IV-E of the Social Security Act. In these cases, the children's support rights have been assigned by a caretaker relative to the state and a referral to the State IV-D Program has been made. A case where at least one child is currently receiving assistance is reported as a "current assistance" case.
- **Former Assistance Case** - A case where the children *formerly* received Title IV-A benefits (Aid to Families with Dependent Children (AFDC), the former welfare program, or TANF/CalWORKs or IV-E Foster Care services. A case where some children are former assistance and some are never assistance is reported as a "former assistance" case.
- **Never Assistance Case** - A case where the children are receiving services under the Title IV-D program but do not, and have not previously received assistance under Titles IV-A or IV-E of the Social Security Act.
- **Medical Support** - Medical support is the legal obligation of a parent to provide health coverage for a child or children. This includes: (1) payment of health insurance premiums; (2) payment of medical bills; or (3) cash payments for health insurance and/or medical bills. Either the custodial or the noncustodial parent may be ordered to provide medical support.

- **Support Order** - The legal establishment of: (1) an amount of money that is due and owed by a parent for the support of the parent's children, and/or (2) the responsibility to provide health insurance and/or medical support for those children. A support order is established through a court order, administrative process, or other legal process.

- **Paternity** - The legal establishment of fatherhood for a child born to unwed parents either by court determination, administrative process, or voluntary acknowledgment. A voluntary acknowledgement of paternity is the legal establishment of fatherhood by written declaration, signed by both parents either at the hospital when the child is born or at other established locations.

APPENDIX A
LCSA CASELOAD GROUPINGS
FEDERAL FISCAL YEAR 2010

	Cases	Percent of Statewide Caseload	
STATEWIDE	1,509,132		
Very Large (6)	Los Angeles	371,257	24.6
