## EXECUTIVE SUMMARY

This report is submitted to meet the provisions of Family Code (FC) sections 17600(c) and 17600(g), requiring annual and semi-annual reporting by the Department of Child Support Services (DCSS) to the Legislature on the status of the child support program and the performance of local child support agencies (LCSAs). This semi-annual report covers the performance results for the first two quarters of Federal Fiscal Year (FFY) 2014, beginning October 1, 2013 and ending March 31, 2014. This report provides detailed state and local level information on performance measures with the exception of data for program costs, program administration and cost effectiveness which are available only on an annual basis.

DCSS established child support program performance standards, effective January 1, 2001, consisting of the federal and state measures to uniformly assess performance at national, state, and local levels.

### Federal Performance Measures

- ✓ Rates of paternity establishment.
- ✓ Child support order establishment.
- ✓ Collection rates on current support.
- ✓ Cases with an arrearages collection.
- ✓ Cost effectiveness (*Collections compared to the cost of collection; available on an annual basis only*).

### State Performance Measures

- ✓ Percent of cases with collections of current support.
- ✓ Average amount distributed per case with a collection.
- ✓ Percent of cases with a support order established during the report period.
- ✓ Percent of cases requiring a support order with alleged fathers or obligors served with a summons and complaint.
- ✓ Percent of cases with support orders established with medical support ordered and provided.
- ✓ Comparison of received complaints to cases (customer service).
- ✓ Total direct cost of administering the LCSAs, including share of costs, and the incentive funding received by each county (*available on an annual basis only*).
- ✓ Total indirect cost of administering the LCSAs, including share of costs, and the incentive funding received by each county (*available on an annual basis only*).

For the semi-annual period ending March 31, 2014, California exceeded the minimum threshold on each of the federal performance measures: Paternity Establishment; Percent of Cases with a Support Order Established; Percent of Collections on Current Support; and Percent of Cases with Arrears Collections. Three of the four reported federal performance measures for this period showed an increase in 2014 from the previous year ending March 31, 2013. Only Statewide Paternity Establishment Percentage (PEP) reflected a decrease from 90.4 percent to 90.0 percent.

FC section 17600(c)(4)(A) directs DCSS to report annually on the *direct* costs of the program, broken down further by total employee salaries and benefits, and a list of the number of the employees, broken down by job classification.

FC section 17600(c)(4)(B) mandates that DCSS will report semi-annually on the *indirect* program costs, showing all overhead charges; however, the data required by FC section 17600(c)(4)(A) and (B) are only available to the Department on an annual basis and therefore cannot be included in this report. The absence of this information also makes it impossible to calculate cost effectiveness at the mid-year point.

## CHILD SUPPORT PERFORMANCE OVERVIEW

### Statutory Requirements

This report satisfies the requirement of FC sections 17600(c) and (g) requiring a semi-annual report of data compiled on California's Child Support Program.

### Performance Measures

Some data is only available annually; therefore, this report does not include data for all of the state and federal performance measures. The semi-annual report addresses the following performance measures:

#### Federal Performance Measures

- Paternity Establishment Percentage.
  - Statewide PEP.
  - IV-D PEP.
- Percent of cases with a support order established.
- Percent of collections on current support.
- Percent of cases with an arrears collection.

See Table A on page 6 of this report for a summary of the federal performance measures comparing the semi-annual period of March 2013 and March 2014.

#### State Performance Measures

- Percent of cases with collections of current support.
- Average amount distributed per case with a collection.
- Percent of cases with a support order established during report period.
- Percent of cases requiring a support order with alleged fathers or obligors served with a summons and complaint.
- Percent of cases with support orders established with medical support ordered and provided.
- Comparison of received complaints to cases.

See Table B on page 7 of this report for a summary of the state performance measures comparing the semi-annual period of March 2013 and March 2014.

For federally required performance measures, an incentive funding system was implemented based on program performance, as required by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA). The intent of the federal performance-based system is to use specific performance indicators to measure the program's success in achieving its goals and objectives and to reward states for achieving intended results. States must meet the minimum performance threshold for each measure in order to earn incentive payments. Failure to meet a federally established threshold not only disqualifies a state from earning incentive payments on that measure, but may also subject the

state to penalties on its Temporary Assistance to Needy Families (TANF) block grant.

The State Performance Measures were established by California to monitor aspects of the child support program not covered by the federal measures, giving DCSS additional insight and indicators to measure program accomplishments.

Overall, both federal and state performance measures are a means to effectively and continuously monitor, evaluate, and improve the performance of the child support program.

## PERFORMANCE ON FEDERAL AND STATE MEASURES

### STATEWIDE PATERNITY ESTABLISHMENT PERCENTAGE

#### *Federal Performance Measures*

The Federal Performance Measure for the Statewide Paternity Establishment Percentage measures the ratio of the total number of children for whom paternity has been established or acknowledged during the current FFY to the total number of children born out-of-wedlock in the state during the prior calendar year expressed as a percentage.<sup>1</sup> This calculation uses the number of children, not the number of cases. A paternity can only be counted once, either when a voluntary acknowledgement is filed or at the time a court order determining paternity is established. For incentive calculation purposes, states can choose whether to have their PEP evaluated using one of two measures: IV-D PEP or Statewide PEP. Based on the substantial success over the past several years of the Statewide PEP measure, DCSS elected to use this measure instead of the IV-D PEP measure, which is also included in this report (see IV-D PEP, pages 10 and 11).

LCSA performance in the Statewide PEP category has proven to be consistently strong. For this mid-year report, the percentage had a slight decrease to 90.0 percent, compared with the mid-year 2013 of 90.4 percent. For FFY 2013, Statewide PEP was 98.6 percent. See Table C on page 9.

---

<sup>1</sup> This percent is calculated from data reported on the CS 1257 Report, line 9 (Children in the State with Paternity Established or Acknowledged During Report Period) divided by line 8a (Children in the State Born Out-of-Wedlock During the Prior Report Period, data provided by Vital Records). Minimum federal performance is 50%.

SOURCE: CS 1257 Line 9 (line 10 + line 16) and Vital Records (VR) Data (line 8a)

Due to adjustments made to the CS 1257, line 16 statewide total count was reduced by 20. Therefore, the sum of the individual LCSA data for line 16 and line 9 (line 10 + line 16) will not equal the statewide total.

\* No activity reported by VR or no birthing hospital for the LCSA or an individual county in a regionalized LCSA, therefore PEP cannot be calculated.

**Federal  
Performance  
Measures****IV-D PATERNITY ESTABLISHMENT PERCENTAGE**

Federal Performance Measure for IV-D Paternity Establishment Percentage (IV-D PEP) compares the total number of children in the IV-D caseload in the FFY for whom paternity has been established or acknowledged, to the total number of children in the IV-D caseload as of the end of the preceding FFY who were born out-of-wedlock, expressed as a percentage.<sup>2</sup>

Though California opts to use Statewide PEP as its federal performance measure, IV-D PEP is provided to LCSAs in regular comparative data reports in order to monitor performance on an ongoing basis.

The mid-year FFY 2014, IV-D Paternity Establishment is 93.8 percent, compared to the mid-year FFY 2013 of 91.6 percent and represents an increase of 2.2 percentage points. See Table D on page 11.

The end of FFY 2013, IV-D PEP was 100.5 percent, an increase from mid-year FFY 2013 of 8.9 percentage points.

---

<sup>2</sup> This percent is calculated from data reported on the CS 1257 Report, line 6 (Children with Paternity Established or Acknowledged) divided by line 5a (Number of Children Born Out-of-Wedlock). Minimum federal performance is 50%.

SOURCE: CS 1257 Lines 5a and 6

Due to adjustments made to the CS 1257, lines 5a and 6 statewide total counts were reduced by 3,913 and 3,986, respectively. Therefore, the sum of the individual LCSA data for lines 5a and 6 will not equal the statewide total.

**Federal  
Performance  
Measures****PERCENT OF CASES WITH SUPPORT  
ORDERS ESTABLISHED**

This Federal Performance Measure determines the percent of child support cases in which a child support order has been established.<sup>3</sup> Support orders are defined as legally established, enforceable orders, including orders for medical support. Established support orders are required in order to legally enforce collections.

Midway through FFY 2014, the number of statewide cases was approximately 1.28 million. Of that, 1.14 million cases, or 88.7 percent had support orders established. An improvement of 0.5 percentage points was made in mid-year FFY 2014 compared to the FFY 2013 mid-year point of 88.2 percent. See Table E on page 13.

For FFY 2013, the percent of cases with a child support order was 89.0 percent. Mid-year FFY 2014 shows a slight decrease of 0.3 percentage points compared to end of FFY 2013.

---

<sup>3</sup> This percent is calculated from data reported on CS 1257 Report, line 2 (Cases Open at the End of the Report Period with Support Orders Established) divided by line 1 (Cases Open at the End of the Report Period). Minimum federal performance is 50%.

**PERCENT OF COLLECTIONS ON CURRENT SUPPORT****Federal  
Performance  
Measures**

Collections on Current Support measures the percentage of current support collected and distributed compared to the total amount of current support owed.<sup>4</sup> Current Assistance, Former Assistance, and Never Assistance cases are all included in the measure, along with cases with cash medical support payments and cases closed during the report period that had current support due.

For mid-year FFY 2014, this measure is 63.8 percent compared with the mid-year FFY 2013 of 62.5 percent. This represents an increase of 1.3 percentage points. See Table F on page 15.

For this measure, California has consistently improved over the past five years, both at mid-year and end of the federal fiscal years. In mid-year FFY 2009, this measure was at 52.3 percent, and at mid-year FFY 2014 this measure was at 63.8 percent, an increase of 11.5 percentage points. Similar to the mid-year percentages, the end of FFY 2009 was 53.4 percent and FFY 2013 is 63.3 percent.

---

<sup>4</sup> This percent is calculated from data reported on the CS 1257 Report, line 25 (Total Amount of Current Support Collected and Distributed) divided by line 24 (Total Amount of Current Support Due). Minimum federal performance is 40%.

**Federal  
Performance  
Measures****PERCENT OF CASES WITH AN ARREARS COLLECTION**

This Federal Performance Measure captures the percent of child support cases that owe past due child support in which at least one payment was made towards that arrearage during the report period.<sup>5</sup> An arrearage is reported any time a current support payment is missed. The measure includes Current Assistance, Former Assistance, Never Assistance, and cases closed during the report period.

The statewide percentage for 2014 semi-annual report period is 57.4 percent, an improvement of 0.9 percentage points from the 2013 semi-annual period. Performance is calculated using cumulative data. See Table G on page 17.

FFY 2013 data showed California at 65.1 percent for cases with collections on arrears.

---

<sup>5</sup> This percent is calculated from data reported on the CS 1257 Report, line 29 (Cases Paying Toward Arrears) divided by line 28 (Cases with Arrears Due During the Report Period). Minimum federal performance is 40%.

**State  
Performance  
Measures****PERCENT OF CASES WITH COLLECTIONS  
OF CURRENT SUPPORT**

This State Performance Measure determines the percent of cases in the IV-D caseload receiving payment for current support compared to the total number of cases with current support due.<sup>6</sup> Unlike the federal performance measure of collections on current support, this measure evaluates the number of cases owing and receiving current support, not the total dollar amounts owed and received.

The statewide percentage for this measure for the first half of FFY 2014 was 78.0 percent, an increase of 1.3 percentage points from the previous mid-year FFY 2013. At the end of the FFY 2013, the performance was 81.0 percent. Results for this measure are calculated using cumulative data. See Table H on page 19.

---

<sup>6</sup> The performance level for this measure is calculated from data reported on the CS 1257 Report, line 45 (Cases Paying Toward Current Support During the Report Period) divided by line 44 (Cases with Current Support Due).

SOURCE: CS 1257 Lines 44 and 45

Due to adjustments made to the CS 1257, lines 44 and 45 statewide total counts were reduced by 4,734 and 3,183, respectively. Therefore, the sum of the individual LCSA data for lines 44 and 45 will not equal the statewide total.

**State  
Performance  
Measures****AVERAGE AMOUNT DISTRIBUTED  
PER CASE WITH A COLLECTION**

This State Performance Measure determines the average amount distributed per case for all cases with a collection. The measure represents the unduplicated count of child support cases with at least one collection of support compared to the total amount of distributed collections (current support and arrears) during the report period.<sup>7</sup>

California's total child support collected and distributed as reported mid-year FFY 2014 reached \$1.13 billion. When applying the 627,406 cases with a collection, the statewide average amount distributed per case with a collection was \$1,795. This is an increase of \$4 collected per case at the mid-year FFY 2013. See Table I on page 21.

Additionally, FC section 17600(b)(6), requires this report to contain information as to the total child support distributed during the current FFY, broken down by Current Assistance, Former Assistance, and Never Assistance cases. This information is contained on Table J, page 22 of this report.

<sup>7</sup> The performance level for this measure is calculated from data reported on the CS 1257 Report, line 25 (Total Amount of Support Distributed as Current Support During the Report Period) and line 27 (Total Amount of Support Distributed as Arrears and Interest During the Report Period) divided by line 18 (Cases with Collections During the Report Period).

**State  
Performance  
Measures****PERCENT OF CASES WITH A SUPPORT ORDER  
ESTABLISHED DURING REPORT PERIOD**

This State Performance Measure determines the number of cases that had a child support order established during the report period, compared to the number of cases open at the end of the period requiring establishment of a support order, expressed as a percentage.<sup>8</sup>

Overall, California's establishment of 37,583 cases with a support order equates to 17.3 percent of cases requiring a support order during the first half of FFY 2014. This represents a decrease of 0.7 percentage points from the FFY 2013 semi-annual performance. Performance for cases with a support order is calculated using cumulative data. Although mid-year FFY 2013 shows 18.0 percent, the FFY 2013 shows California at 34.1 percent in this measure. See Table K on page 24.

---

<sup>8</sup> The performance level for this measure is calculated from data reported on the CS 1257 Report, line 17 (Cases with Support Orders Established During the Report Period) divided by the sum of line 17 and line 12 (Cases Open at the End of the Report Period Requiring Services to Establish an Order).

**State  
Performance  
Measures****PERCENT OF CASES REQUIRING A SUPPORT  
ORDER WITH ALLEGED FATHERS OR OBLIGORS SERVED  
WITH A SUMMONS AND COMPLAINT**

The purpose of this State Performance Measure is to determine the percent of alleged fathers or obligors served with a Summons and Complaint to establish a paternity or a support order.<sup>9</sup> The court process requires that the alleged father or obligor must be served with a Summons and Complaint (either in person or by certified mail) to legally establish paternity or to establish an order for child support.

During the semi-annual report period for FFY 2014, a total of 39,626 alleged fathers or obligors were served a summons and complaint, in comparison to 217,212 cases requiring a support order, or 18.2 percent of the cases. For mid-year FFY 2013, this measure was 18.3 percent, which is higher than mid-year FFY 2014 by 0.1 percentage points. See Table L on page 26.

<sup>9</sup> The performance level for this measure is calculated from data reported on the CS 1257 Report, line 43 (Number of Alleged Fathers or Obligors Successfully Served with a Summons & Complaint During the Report Period) divided by the sum of line 17 (Cases with Support Orders Established During the Report Period) and line 12 (Cases Open at the End of the Report Period Requiring Services to Establish an Order).

## PERCENT OF CASES WITH SUPPORT ORDERS ESTABLISHED WITH MEDICAL SUPPORT ORDERED AND PROVIDED

### State Performance Measures

The State Performance Measure for Cases with a Medical Support Order determines the percent of cases with support orders established with medical support ordered and provided. Current Assistance, Former Assistance, Never Assistance, and cases closed during the report period are included in this measure.<sup>10</sup>

For the first two quarters of FFY 2014, 54.5 percent of the cases with child support orders established also had medical support ordered and provided. This is a decrease of 2.5 percentage points from the first two quarters of the prior FFY performance. See Table M on page 28.

<sup>10</sup> The performance level for this measure is calculated from data reported on CS 1257 Report, line 21a (Cases at the End of the Report Period in which Medical Support is Ordered and Provided) divided by the remainder of line 2 (Cases Open at the End of the Report Period with Support Orders Established) minus line 2e (Arrears-Only IV-D Cases with Orders Established).

**State  
Performance  
Measures****COMPARISON OF RECEIVED COMPLAINTS TO CASES**

This State Performance Measure shows a comparison of complaints to the caseload for each LCSA. The purpose of this information is to assess effectiveness of case management for each county's Child Support Program. The comparison utilizes county caseload and computes the number of complaints per 10,000 cases.<sup>11</sup>

Family Code section 17800 requires the maintenance of a uniform complaint resolution process within the LCSAs. To ensure uniform complaint resolution data tracking and reporting, DCSS developed the Complaint Resolution Tracking System (CRTS). All LCSAs are required to use CRTS to enter complaint data.

During this reporting period, there were 662 complaints filed and reported in CRTS for the approximately 1.28 million cases. The number of complaints has gradually decreased by 115 at mid-year 2013 and by 138 in 2014. Monthly reports use the CRTS count based on the number of complaints for the month, rather than the total number of complaints for the reporting period. See Table N on page 30.

---

<sup>11</sup> Complaint information is based on the Complaint Resolution Tracking System (CRTS) and caseload data reported on the CS 1257 Report, line 1 (Cases Open at the End of the Report Period).

## GLOSSARY

California's child support program operates within a complex federal and state statutory and regulatory construct. There are many terms used within the program that have a specific meaning and are reflected in the federal and state performance measures. Terms commonly used in the performance measures are:

- **IV-D Program** - The State child support enforcement program, enacted under Title IV-D of the federal Social Security Act, locates noncustodial parents or putative fathers; establishes paternity; establishes, modifies, and enforces child support and medical support orders; and collects and distributes child support payments.
- **IV-D Case** - A parent (mother, father, or putative father) who is now, or eventually may be, obligated for the support of a child or children receiving services under the Title IV-D Program. A parent is reported as a separate IV-D case for each family with a dependent child or children that the parent may be obligated to support. If both parents are absent and liable or potentially liable for support of a child or children receiving services under the Title IV-D Program, each parent is considered a separate IV-D case.
- **Current Assistance Case** - A case where the children are: (1) recipients of California Work Opportunity and Responsibility to Kids (CalWORKS)/ Temporary Assistance for Needy Families (TANF) under Title IV-A of the Social Security Act, or (2) entitled to Foster Care maintenance payments under Title IV-E of the Social Security Act. In these cases, the children's support rights have been assigned by a caretaker relative to the state and a referral to the State IV-D Program has been made. A case where at least one child is currently receiving assistance is reported as a "current assistance" case.
- **Former Assistance Case** - A case where the children *formerly* received Title IV-A benefits (Aid to Families with Dependent Children), the former welfare program, TANF/CalWORKS, or IV-E Foster Care services. A case where some children are former assistance and some are never assistance is reported as a "former assistance" case.
- **Never Assistance Case** - A case where the children are receiving services under the Title IV-D program, but do not and have not previously received assistance under Titles IV-A or IV-E of the Social Security Act.
- **Medical Support** - Medical support is the legal obligation of a parent to provide health coverage for a child or children. This includes: (1) payment of health insurance premiums, (2) payment of medical bills, or (3) cash payments for health insurance and/or medical bills. Either the custodial or the noncustodial parent may be ordered to provide medical support.

- **Support Order** - The legal establishment of: (1) an amount of money that is due and owed by a parent for the support of the parent's children, and/or (2) the responsibility to provide health insurance and/or medical support for those children. A support order is established through a court order, administrative process, or other legal process.
  
- **Paternity** - The legal establishment of fatherhood for a child born to unwed parents, either by court determination, administrative process, or voluntary acknowledgement. A voluntary acknowledgement of paternity is the legal establishment of fatherhood by a voluntary acknowledgement signed by both parents either at the hospital when the child is born or at other established locations.
